Overview

Goals

- **Skills:** effectively manage a software development project within a team
 - Defining your **role** and **responsibilities** within a given **project team**
 - Establishing **SMART goals**
 - Eliciting & negotiating **requirements**
 - Managing **time** effectively
 - tools and methodologies for project **scheduling**
 - **deciding** & **prioritising** personal tasks within the project
 - **Reflection** on one's own behaviour with regard to planning

Overview

Setting

- You will be [working in pairs](#) (P-project)
 - Special cases (AM-TCS Double-degree, Minor, Resit, etc.): see page 3 of the M2 manual
- [Four workshops](#) (weeks 2, 4, 5, 7)
 - A. [Mandatory presence](#)
 - B. One team [assignment](#) / workshop (submission deadline - the same day); Graded [pass/fail](#) (no credits!)
 - C. [Info/contents & assignment](#) slides provided in [Canvas](#) shortly before each workshop
 - D. Work with your pair, under the supervision of [TAs](#) and [teachers](#)
- Remindo [resit](#) exam (week 9)
 - If you fail A. or B. above, for one, two or three (out of four) workshops
 - **Fail** the entire module, if you fail A. or B. above for all workshops!
